

# PHYSICIAN ENGAGEMENT EXPORTFEATURES

This resource explains the Present Now and Download features of the Summary page. Present Now allows you to create a presentation-ready format of the Summary page in HTML format and Download the same file as a pdf.

If system filters are applied, the cover page of the file will indicate data is filtered and a list of the filters can be found on the last page.

From the Summary page, you can select Download or Present Now.

### Download

When you select Download you will have two options

#### **EMAIL PDF**

This option allows you to email yourself a PDF copy of the Summary page presentation-ready format.

#### DOWNLOAD HTML

HTML is a digital format designed to display as a webpage. This format makes information easy to present and view. The presentation-ready slide set of the information on the Summary page is produced according to the filters you have applied.

#### **Retrieve and Save the HTML File**

To retrieve the file you two options:

1. If you have a pop-up notification at the bottom of your screen, select the file and it will open.

2. Access a copy from the Downloads folder of your computer.
