## Distribution

The graph for each item shows the distribution of different responses.

## Score

Item scores are displayed as a mean score which is the sum of all response options to an item divided by the total number of responses (this will always be within a range from 1 to 5).

Score
4.37
4.34

## Comparison to Benchmarks Fields

These fields display the mean score difference between the benchmarks you chose and the number of individuals who responded to the survey for the group you are viewing.

vs. Nat'l Physician Avg 2021	Responses
+0.16	1,022
+0.12	1,064

## Historical Scores and Comparison

If historical data is available these score will be displayed in the column under the appropriate year. The “vs.” column shows the difference between the current and historical scores.

2020	vs. 2020
3.27	-0.05
3.67	-0.14

## Improvement Planning

Each item has a button with a plus (+) sign on it in the Improvement Planning column. By clicking the plus sign, you'll be taken directly to an improvement plan template for this item.
